

ASSET MANAGEMENT SOLUTIONS

Enhanced Item Searching Google-like Item Search

Manage Your MRO and Indirect Inventory Better

AMS has enhanced JD Edwards EnterpriseOne by providing an elegant search function that works a lot like Google. We've removed the character limit and field limits, so you can search for what you need, when you need it.

A simple, easy way to search for parts!

Work with Item Branch Word Search

Query: All Records

Word Search | Literal Search | Spec Search

Item Search Text: filt* AIR

Branch/Plant: MRO

Omit Obsolete Items

Omit Zero Quantity Available

Where Used - EPL | Where Used - BOM

Records 1 - 4

Item Number	Description	Description 2	Search Text	Branch	Qty On Hand	Qty On PO	Qty Soft Committed	Qty Hard Committed
20436	3 micron Air Filter	36" X 48"	Filter, Air, 3 micron	MRO	136			110
20899	Filter Seal	36" X 48"	Seal, Air Filter	MRO	199			1
20437	3 Micron Air Filter	36" X 48"	Filter, Air, 3 Micron	MRO				
AIR	Air Filter		Air Filter	MRO	49			1

Address your item search frustrations and pain points in JD Edwards:

- ✓ Part not in stock
- ✓ Case sensitivity
- ✓ 30 character limits
- ✓ Obsolete part selected
- ✓ One wildcard * per field
- ✓ Selected part wasn't in my branch
- ✓ Only 2 description fields
- ✓ Vendor/OEM part numbers
- ✓ What product or equipment uses it?
